Let`s us introduse Mercy Center

Mercy Center help needed children and their families in several directions

We also have small practical place in Olgino, and in communal house we have activity day-centre "Luchik"

Social support

We have a lot of poor families, who have a lot of needs. They need food, clothes, toys for children and many more... We go to that families time to time and check their needs.

Family of Rita Prigarina.

In this family live one mother – Rita (32 years old) and 3 her daughters – Lisa (10 years old), Masha (9 years old) and Alena (7 years old). Rita in the past was drug addict. Several years ago she took course of rehabilitation. In that time her children many times were in shelter.

Nowadays she lives without job, with 3 children alone in flat. She got pension of disability and child allowance, in total she have 400 euro in month. She pay 150 euro for flat in the summer time.

Anatoly Plyushko gave this family 2 bed for girls (thank to truck with furniture), because they have no bed where to sleep. They do not have wardrobe, that's why all clothes lie in bag.

Family of

Marina

Kazina. This

family have 5 children, the smallest is 5 years old. The mother is unemployd. The father in the summer time usually goes to forest to collect berries and

mushrooms, after that he sell it for feed the whole family. In the winter the situation get worse. But anyway they have not enought money for life - Every month they pay rent for flat, for food, for education- they need to pay for 1 children 50 euro in the kindergarden. But from January 2015 Marina have only 300 euro for everything, also she pay for flat 125 euro. They dream about cosmetic repair. They for living need to glue wallpaper to the wall, because the children can be allergic to the dust. We have visited this family during Christmas time, and gave them Christmas present!

The next family, which we have visited - House of Svetlana. When we came more closer to

this house, which actually could not be called as a House. The atmosphere of the house inside were so sad,-the light of the candle have been burning so dimly. But how endless glad she was, when we visited her. Because nobody care about her in her poor place.

In her room we cannot stand straight, because the ceiling declined. But here lives so high-minded heart!!!

*We are so thankful for every one who have open-heart and kind person, who want and can help with truck of clothes and food for them. But how appreciate it **those** who are in needs! **No words!!!***

Family of Marina

On the next photo you can see one more sad story of life **Marina's Family**... This family be in pain of their father went to prizon. But today they also have a holiday, of course with choklate and presents! Thanks to your help, our friends! We have more and more families with needs.

We invite children, their parents and also we wait in Mercy Center those grandmothers and grandfathers who have no place where to go. During

Christmas time we have been visited by all of them.

But those, who have no possibility to come to Mercy Center - we visited them, and let them know that they are not alone, we will care about them, visit them, and make gifts

to them together with children.

Social support

**We care about those,
who have no home,
and no possibility
to go by themself.**

We always appreciate your help!!!

Because we care about children every day, that they have hot food!

We will start again the project "Summer soup"

from 1/06/2015-28/06/2015

All children will have hot food (soup) during this project

We would like that children eat more than 1 time per day, so we will organise additional food for them thanks to our friends

Distribution of clothes and shoes.

Many Many parents are gratefulness to every your truck with clothes and shoes! During distribution of clothes parents usually comes with their small babies, because everyone can find something for themselves and every time it makes them happy!

Thank you for your help!

We need your help!

In May 2015
we had distribution
of clothes, shoes,
toys.
We ALWAYS
need clothes and food.

We are happy
when we make
our children,
their unemployed
parents happy!

Together we
can do more!

With thankfulness, Anatoly Plyushko, staff and children from Mercy Center
